Lisa Stabler joins TPCI's Senior Management Team

Pueblo, Colo. — Lisa Stabler, former AVP, Quality & Reliability Engineering at BNSF Railway, joined TPCI's senior management team as VP of Operations and Training on July 26, 2010.

Stabler will provide officer level oversight to TPCI's Operations and Facilities program, the Safety, Health, and Environmental program, and to the Security and Emergency Response Training Center.

"All three functions will benefit from her leadership skills and railroad experience," said TPCI President Roy Allen.

Stabler is a Six Sigma Master Black Belt and is a well-known and respected within the industry. She formerly chaired the Advanced Technology Safety Initiative Program, the industry-wide initiative that is redefining the way that freight car maintenance is performed.

"I feel that TPCI is very fortunate to have been able to attract someone with Lisa's outstanding qualifications and experience. I look forward to working with her and the existing management team to move TPCI into an exciting future," said Allen.

Stabler has a Bachelor of Science degree in Mechanical Engineering and a Master's in Mathematics. She also holds several certifications from the American Association for Quality.
